Elantra in Marina Blue

# More luxurious and refined.

The All-New Elantra is Hyundai's visionary take on the classic sedan. Sleeker lines and refined curves. Superior drive and handling. A sophisticated and luxurious interior.

The profile is more coupé-like now with a low 0.27 co-efficient of drag. The stance, wide and assured. And the striking hexagonal, chrome front grille clearly communicates confidence.

## **Hyundai signature hexagonal grille**

The wide mouth, chrome front grille<sup>1</sup> adds a sophisticated and premium look that will make you feel good every time you approach your Elantra.

## **Side air ducts for even better aerodynamics**

New air ducts tucked into the front corners help to smooth airflow around the tyres to further minimise turbulence and wind resistance, further improving fuel efficiency.

## **Be more visible during daylight driving**

LED Daytime Running Lights (DRL) switch on automatically when the engine is started and shine forward to make the vehicle more visible during the day.

## **No need to turn on the wipers<sup>1</sup>**

As soon as moisture hits the windscreen, the wipers are activated. No need to take your hands off the wheel or your eyes off the road.

## **Automatic dusk-sensing headlamps**

A light sensor automatically activates the headlamps at dusk and/or during other low light conditions, ensuring you can always have high visibility without ever having to lift a finger.

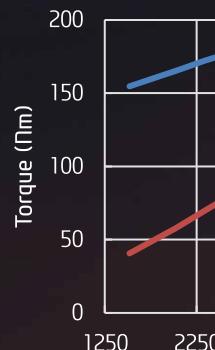

## **Electric folding exterior mirrors and courtesy lamps<sup>1</sup>**

As the driver approaches the Elantra, the system senses the Proximity Smart Key<sup>1</sup> and welcomes the driver by illuminating the LED courtesy lamps in the door handles and unfolding the side mirrors.

1. Available on Elite variant.

<sup>^</sup> Manual transmission.

<sup>#</sup> Automatic transmission.

## The power to take you further.

Both models are powered by Hyundai's Nu 2.0-litre Multi Point Injection (MPi) Petrol engine, which delivers more power and – critically – more useable torque than the previous Elantra Series II's 1.8-litre MPi four-cylinder engine.

The All-New Elantra Active is available with either Hyundai's smooth-shifting six-speed manual transmission or advanced six-speed automatic.

Elantra Elite in Moonlight Blue with  
Beige<sup>2</sup> Leather Appointed Seats<sup>3</sup>

## Make yourself at home.

**Stretch out and enjoy the spacious, well-appointed interior**  
Everything about the new Elantra has been refined with appointments and finishes often only seen in the luxury class. Superior quality Premium steering wheel<sup>1</sup> and gear knob<sup>1</sup>. Contemporary high gloss black trim.<sup>1</sup> And all that room. Leg room. Arm room. Room for cargo, and more.

All-New Elantra also introduces a more ergonomically functional, comfortable interior environment.

### At a glance, see everything you need to know

For ease of use and to create an even more driver-focused feel, All-New Elantra's centre stack is angled towards the driver by seven degrees. What's more, every Elantra features a huge 7" touch screen display.

### Take control with your fingertips

Controls, such as audio and cruise control, are ergonomically positioned as steering wheel mounted switches, so you can adjust various functions while keeping your hands firmly on the wheel.

### Every convenience considered

When it comes to comfort and convenience, we've considered every detail. The All-New Elantra includes automatic windscreen defogger<sup>1</sup> and a sliding armrest.<sup>1</sup> There's even a place to store your sunglasses.

1. Available only on Elite variant.

2. Only available in exterior colour Moonlight Blue.

3. Leather appointed seats mean parts of the seats have a combination of genuine and artificial leather, but are not wholly leather.

Elantra Rear View Camera

Elantra Elite Push Button Start

Elantra Elite  
Hands-Free Smart Boot

## Loaded with technology. Just ask Siri®.

Technology and innovation are at the heart of Hyundai's success. We don't simply believe in harnessing the power of technology to make driving safer, easier and more enjoyable. We also believe in making it as widely available as possible.

### **Stream music, talk to friends, and belt out commands**

The All-New Elantra is one of the first small sedans with Apple® CarPlay™<sup>1</sup> as standard. Do things you'd do with your iPhone® while driving. Access your apps on the touch screen display, or ask Siri® to assist. Get directions, calls, and music all in a way that lets you stay focused on the road.

### **Hands-free Smart Boot and Proximity Smart Key<sup>2</sup>**

The Smart Boot<sup>2</sup> solves the problem of opening the boot when your hands are full. It's smart. With the Proximity Smart Key<sup>2</sup> in hand or pocket, the boot opens intuitively when you stand behind the vehicle.

### **Parking made easier and reversing safer**

A rear view camera and reverse parking sensors are standard on all models, making it easier to park in tight spots and helping you reverse safely.

### **Keyless entry and push button start<sup>2</sup>**

With the Proximity Smart Key<sup>2</sup> you can unlock and start your All-New Elantra without taking the key from your pocket. Great for fast entry in the rain!<sup>2</sup>

1. Apple® CarPlay™ requires iPhone® 5 or subsequent model (lightning cable) in order to operate. Apple®, Siri® and iPhone® are registered trademarks of Apple Inc.

2. Available only on Elite variant.

Elantra Elite Interior Shown

# A total commitment to safety.

We've strengthened the chassis of the All-New Elantra and included 53% advanced high strength steel (AHSS) and stamped it with 120m of structural adhesives. With over 1,820 days of development we've made a car that's stronger, safer and built to last. And incorporated technologies that help you maintain control in difficult driving situations.

## **Lots of airbags, just in case**

Even with so many active safety features, accidents are sometimes unavoidable. That's why we've loaded the All-New Elantra with six airbags (front, side-impact and side-curtain) to help protect you and your passengers in the event of a collision.

## **Smart help for challenging situations**

The Anti-lock Braking System (ABS) with Electronic Brakeforce Distribution (EBD) works to help prevent the brakes from locking up and also shortens braking distances. When panic braking is detected, the Brake Assist System (BAS) ensures you brake with enough force, while the Traction Control System (TCS) assists by reducing wheel spin on slippery or uneven road surfaces.

If you find yourself in a situation where your vehicle begins to skid, the Vehicle Stability Management system (VSM) helps you correct your steering position and maintain control.

## **Safely secure a child's seat**

The All-New Elantra includes ISOFIX, an international standard for attachment points for a child restraint. By making it easier to fit them correctly, their effectiveness is optimised.

## **Clear vision of the road ahead**

As dusk sets in, or when you enter a dark area such as a car park or tunnel, the headlights automatically turn on. And in foggy conditions, projector-beam foglights (standard across all models) help you maintain visibility to other vehicles and cut through the murky conditions.

# Which All-New Elantra would you prefer?

**Choose from two different levels of appointments and transmissions.**

The All-New Elantra is available in Active and Elite variants, as well as your choice of either a 6-speed auto or manual transmission.

1. All Hyundai Genuine Accessories are subject to warranty conditions. See your nearest Hyundai Dealer or visit our website at [www.hyundai.com.au](http://www.hyundai.com.au) for full warranty terms and usage recommendations. 2. iPad® is a registered trade mark of Apple Inc. The iPad® holder has been designed to hold an iPad® 1, 2 or 3 securely. To ensure occupants are protected in the event of a collision, the screen protector must be fitted to the iPad® when in use. iPad® not included. 3. Only suitable for use with retractable seatbelt. 4. Please note that mudflaps cannot be fitted in conjunction with a full BodyKit or Rear Skirt. 5. Load capacity = 65kg distributed evenly across 2 bars. 6. Bike not included. 7. Front Corner Park Assist is designed as driver assist aid only and should not be used as a substitute for skilled driving and safe parking practices. While the Park Assist sensors monitor objects on approach, there may be occasions where blind spots affect the sensitivity of the sensors and as a result, the area into which the vehicle is heading must be visually monitored by the driver at all times while parking.
