Winning awards. Winning hearts.

When the first i30 burst onto the scene in 2007, it was an instant hit. Designed in Germany and finetuned right here for Australian driving conditions, it's been a winner in Australia's Best Cars awards in six of the past seven years, including 2015.¹

From the versatile five-door hatch through to the power-packed SR, it's all fluid lines and sporty good looks. But those sleek curves aren't just for show. They also deliver refined aerodynamics and fewer trips to the pump.

HYUNDAI i30 ACTIVE

1. 2015 Australia's Best Cars awards. Best small car under \$35,000 winner. The Australian Automobile Association.
2. Only available on SR Premium and Premium variants.
3. Only on Premium and SR variants.

i30 Series II Premium in Marina Blue

More get-up-and-go.

The i30 isn't just a good looker. Under the bonnet it's also a big performer. By cleverly combining aerodynamic design with smart powertrain engineering and the most modern advances in transmissions, every i30 is not just fun to drive but also amazingly efficient to run.

Petrol engine

The i30 is available with Hyundai's highly responsive 1.8 litre 'Nu' powertrain to ensure plenty of zip and satisfying acceleration. This advanced engine features Dual Continuously Variable Valve Timing (Dual CVVT), which provides up to 107 kW @ 6,500 rpm of power. And if you're driving the i30 SR, the 2.0 litre version of the all-alloy 'Nu' direct-injection (GDi) engine delivers the extra boost you need with a maximum power of 124 kW @ 6,500 rpm.

Diesel engine

The 1.6 litre Diesel engine provides dynamic off-the-line acceleration with its impressive 260 Nm @ 1,500-3,500 rpm (manual) or 300 Nm @ 1,750-2,500 rpm (DCT) of maximum torque and 100 kW @ 4,000 rpm power output, matched by remarkable fuel efficiency and low emissions.

i30 Series II Premium interior shown

Loads of space for the way you live.

Unlike a traditional 'small car', the spacious, intelligently designed and impressively quiet cabin of the i30 is big and comfortable.

There's plenty of head, leg and shoulder room for four adults, and more than a long-weekend's worth of space for their cases, bags and sports gear. Plus, with the versatility of rear seats that can be folded down one-third, two thirds, or completely, the total carrying capacity is even more remarkable.

You'll also be impressed by the way we've made advanced technologies available. A touch screen multimedia system. Heated and air ventilated¹ front seats. Dual zone climate control.² And more.

1. Available only in SR Premium and Premium variants.

2. Available only in SR, SR Premium and Premium variants.

i30 Series II
Rear View Camera

Apple® CarPlay™

Packed with easy-to-use, awesome technology.

The i30 is equipped with an array of seamlessly integrated technologies. USB ports, hands-free, music streaming, and steering wheel mounted audio controls. With all this, it's even easier to stay in touch with your world.

Use your iPhone® on the road, safely

Apple® CarPlay™¹ lets you do things you'd do with your iPhone® while driving your car. Access your apps on the touch screen display, or ask Siri® to assist. Get directions, calls, and music all in a way that lets you stay focused on the road.¹

Parking made easier and reversing safer

A rear view camera is standard on all models in the i30 range, making it easier to park in tight spots and helping you reverse safely.

Have a clear view of what's around your i30 at night

LED lamps on the base of the side mirrors light up the ground by each front door, making it safer and easier to get into the vehicle at night.²

Just press the start button

With the Proximity Smart Key in your pocket, just push the start button and you're ready to drive off.²

1. Apple® CarPlay™ requires iPhone® 5 or subsequent model (lightning cable) in order to operate. Apple®, Siri® and iPhone® are registered trademarks of Apple Inc. Available only in Active and Active X variants.

2. Available only in SR, SR Premium and Premium variants.

Peace of mind doesn't come better than this.

Whether it's bad weather or bad drivers, there are many things that can present real driving challenges. With a wide array of the latest safety technologies standing by, the i30 is ready to assist, whatever situation you're in.

Seven airbags and a 5-star ANCAP rating

To protect you and your passengers in the event of an impact, every i30 model is equipped with a comprehensive seven-airbag safety system, including a driver knee airbag. In addition you have the added reassurance that the entire range has achieved a 5-star ANCAP rating for safety.

Smart help for challenging situations

The Anti-lock Braking System (ABS) with Electronic Brakeforce Distribution (EBD) works to help prevent the brakes from locking up and also shortens braking distances. When panic braking is detected, the Brake Assist System (BAS) ensures you brake with enough force, while the Traction Control System (TCS) assists by reducing wheel spin on slippery or uneven road surfaces.

Know what's behind you when reversing

When reversing, rear sensors start beeping when they detect objects that might be outside your field of vision.

Ready to explore the i30 Series II range?

What are you looking for in a small car? A versatile hatch for city driving that has loads of room for passengers and all sorts of stuff? Or something even more premium and sporty that's been tailor-made for fun?

Across the range, you can customise your i30 with your choice of colours and trims. Make your i30, your way.

i30 Series II SR in Fiery Red

Heart-racing performance.

The stylish new i30 Series II includes SR and SR Premium variants that are both tailor-made for fun.

They offer sportier looks thanks to road-gripping 17" alloy wheels in a gunmetal grey finish, a sports front grille, LED Daytime Running Lamps (DRL) and a lower rear diffuser.

But the real fun comes from the SR range's increased performance. Both variants are powered by a 2.0 GDi Petrol engine paired with your choice of 6-speed manual or automatic transmission, offering a maximum power output of 124 kW @ 6,500 rpm and maximum torque of 201 Nm @ 4,700 rpm, as well as a bespoke sports suspension developed for Australian conditions. The result is a sporty and engaging drive – plus it's faster and has more responsive handling.
